1. Scope

This End User License Agreement (hereinafter: "License") is granted by Human Language Technology (HLT) Laboratory, National University of Singapore (NUS), 21 Lower Kent Ridge Rd, Singapore 119077 (hereinafter: "Licensor") to the End User. This License is an Open Source License.

2. Material under License

The material under License (hereinafter: "Database") is a Human Language Technology (HLT) Laboratory, National University of Singapore (NUS) database described in Schedule 1 composed of multi-speaker and multi-lingual emotional speech parallel data. The Database contains recordings of emotional speech data and its transcripts. All data contained within the Database have been ordered, collected and processed in accordance with the laws applicable in Singapore.

3. Copyright

The Database is the sole property of the Licensor and is protected by copyright. The Licensor reserves all rights to use in any way and distribute the Database. The Database shall remain the exclusive property of the Licensor. Save as expressly provided herein, the End User acquires no ownership, rights or title of any kind in all or any parts with regard to the Database.

4. License

Subject to prior identification of the End User and submission of a signed License, the Database is freely available to the benefit of the End User. The Licensor grants to the End User the right to use the Database, for its own internal, non-commercial Research only. The End User may only disclose and give access to the Database to subsidiaries and/or students (hereinafter "Affiliates"), under the following conditions:

1)a copy of this License, executed by the End User, is provided to the End User's Affiliates;
2)The Affiliates have fully read and understood all terms and conditions of the License, and such Affiliates agree to fully abide by the terms of the License;
3)The access to the Database is granted under the close supervision of the End User; 4)The End User shall be responsible and liable for any infringement of the License by any of its Affiliates.

The Licensor grants to the End User the right to reproduce, to adapt, arrange and modify by any means the Database. The Licensor grants to the End User the right to rework and build upon the Database, or any component thereof, or create derivative products or services for the End User's own internal and non-commercial Research only. The End User is permitted to make a copy of the Database for archiving only. This License gives no other rights of any kind to the End User over the Database. The License is deemed non-exclusive and non-transferable to third parties.

5. Access

The End User may only use the Database after this License has been signed and returned to the Licensor. The End User must return the signed and dated License by email, in PDF format to the Licensor at the following address: haizhou.li@nus.edu.sg. The Database is accessible online at the following address: *https://hltsingapore.github.io/ESD/*

6. Copyleft and Open Science

As a condition of the grant of the License to the End User, any derivative work, product, services, scientific developments, improvements, or modifications of any kind based on all or part of the

Database (collectively, "Modifications") shall be made freely available to other End Users. A copy of any Modifications shall be submitted to the Licensor at the following email address: haizhou.li@nus.edu.sg.
The End User shall ensure that, when making any Modifications, the Database is not altered and that the Database still operates, and that the audio files of the Database must remain unmodified. Any violation of this clause will give rise to immediate legal prosecution, and NUS reserves the right to immediately terminate this License and any rights granted to the End User thereunder.

7. Distribution

The End User shall not, without prior authorization of Licensor, transfer in any way, permanently or temporarily, distribute or broadcast all or part of the Database or Modifications to third parties. The End User shall send all requests for the distribution of the Database to the Licensor at the following email address: haizhou.li@nus.edu.sg.

8. Research

"Research", for the purposes of this License, shall be defined as all type of scientific research, irrespective of the object under scrutiny, aimed at achieving a progress in science. This database is designed to test algorithms for voice conversion, emotional voice conversion, speech synthesis, and emotional speech synthesis.

9. Commercial use

Any commercial use of the Database is strictly prohibited. Commercial use of the Database includes, but is not limited to:

- Proving the efficiency of commercial systems;
- Testing commercial systems;
- Using screenshots of subjects from the Database in advertisements,
- Selling data or making any commercial use of the Database,
- Broadcasting data from the Database.

Any violation of this clause will give rise to immediate legal prosecution by the Licensor. Any profits and/or unjust enrichment or similar gains which the End User obtains due to the breach of the License shall be immediately restituted to the Licensor, and the End User shall also assign absolutely and unconditionally to the Licensor all Modifications.

10. Publications

The End User shall reference the Database, or results obtained with it, in publications.
Publications include, but are not limited to:

- Research papers,
- Articles,
- Presentations for conferences or educational purposes.

The End User shall ensure that all publications which report on research that use the Database will contain an acknowledgement as follows: ***"(Portions of) the research in this paper used the ESD Database made available by the HLT lab, National University of Singapore, Singapore."***

In addition, this citation must be used to refer to the data:

"Emotional voice conversion: theory, databases and ESD ", by Kun Zhou, Berrak Sisman, Rui Liu, and Haizhou Li, submitted to Speech Communication.

11. Illegal or criminal use of the Database

Any illegal or criminal use of the Database by the End User is strictly prohibited.

12. Legal Disclaimer

The Database is granted "as-is" and without any warranties, implied or expressed. Licensor shall not be held responsible for any damage (physical, financial or otherwise) caused by the use of the Database. Licensor shall not be held responsible of any illegal or criminal use of the Database by the End User.

13. Termination

NUS reserves the right to terminate access to the Database and this License at its sole and absolute discretion at any time by giving the End User prior written notice of 14 days ("Notice of Termination"). Upon receipt of the Notice of Termination, the End User shall, within 14 days, destroy or return to NUS (at NUS' election) any and all copies of the Database, Modifications, and any material, data, information and documents containing or made with the Database.

14. Governing Law and Jurisdiction

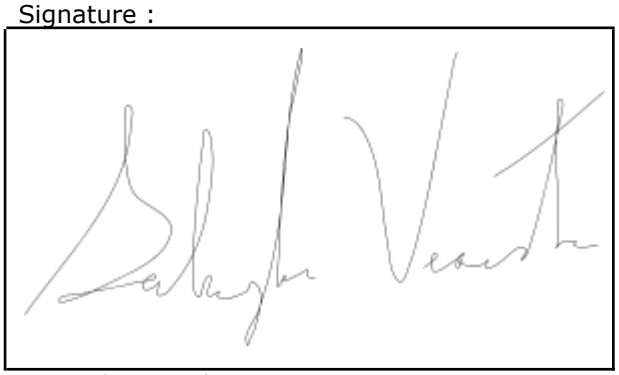

This License is subject to and interpreted in accordance with Singapore Law. Parties agree to submit to the exclusive jurisdiction of the Singapore courts, except that a party may seek an injunction in any court of competent jurisdiction.

15. Warranties

The End User warrants that they are an authorized signatory of legal age and are not prohibited to enter into this License. The End User warrants that they have read and understood all the terms contained herein and that the signature apposed hereunder is a fully informed decision.

Schedule 1

Description of the ESD Database:

The ESD database consists of 350 parallel utterances spoken by 10 native English and 10 native Chinese speakers and covers 5 emotion categories (neutral, happy, angry, sad and surprise). More than 29 hours of speech data were recorded in a controlled acoustic environment. The database is suitable for multi-speaker and cross-lingual emotional voice conversion studies.
